

PERMANENT CASTLE CON.Est.

About us

Our Mission & Vision

You are here: [Home](#) » [About Us](#) » Our Mission & Vision

PCC strives to provide First-Class-Quality and cost effective projects and to be part of the Kingdom prosperous growth and bright future.

We shall contribute effectively to the Kingdom's economy by providing highest industry standards in all the projects and services our company provides.

Immediate/Future Business goals:

- Significantly expand into the commercial and office/home building contracting market to improve profit margins and increase local market share.
- Expand services and decrease costs by creating a permanent craftsmen crew, as well as adding various disciplines into its workforce.
- Partnership with major construction and contracting company to gain and bridge the experience gap and to share success through mutual business agreements.
- Secure at least three large scale commercial contracts over the next 12-months.
- Expand our customer base through expansion into other geographical areas to retain a sufficient level of profitability.
- Explore and capture all opportunities in the trading market.
- Study the possibility of exporting and importing materials with local and international suppliers.

Permanent Castle Con Est.(PCC) is Saudi National Company and is a newly established company that is aiming to achieve sustainable success and to be part of the Kingdom of Saudi Arabia growth. We are committed to provide First-Class Est.

Permanent Castle Con Est.. Liability registered in Dammam, Kingdom of Saudi Arabia.

PCC is exclusively owned by a group of partners sharing the same vision. The company Head Office is located in the city of Dammam.

Thank you for taking the time to visit and read through our company Website. PCC has been established on a dream comes true. Therefore, the Board of Directors and I are aiming to establish a strong earning foundation. Having said that, we know that we will be faced with a lot of challenges but we are determined to overcome them and turned them to opportunities. Our country healthy economical environment is one of pillars will count on, nonetheless, we will employ high level of professionals starting with the Saudi Nationals and then those expertise that we may need from abroad to bridge experience.

We will contribute to the local community providing any services that add value. And also, we will apply the highest standards in the PCC.

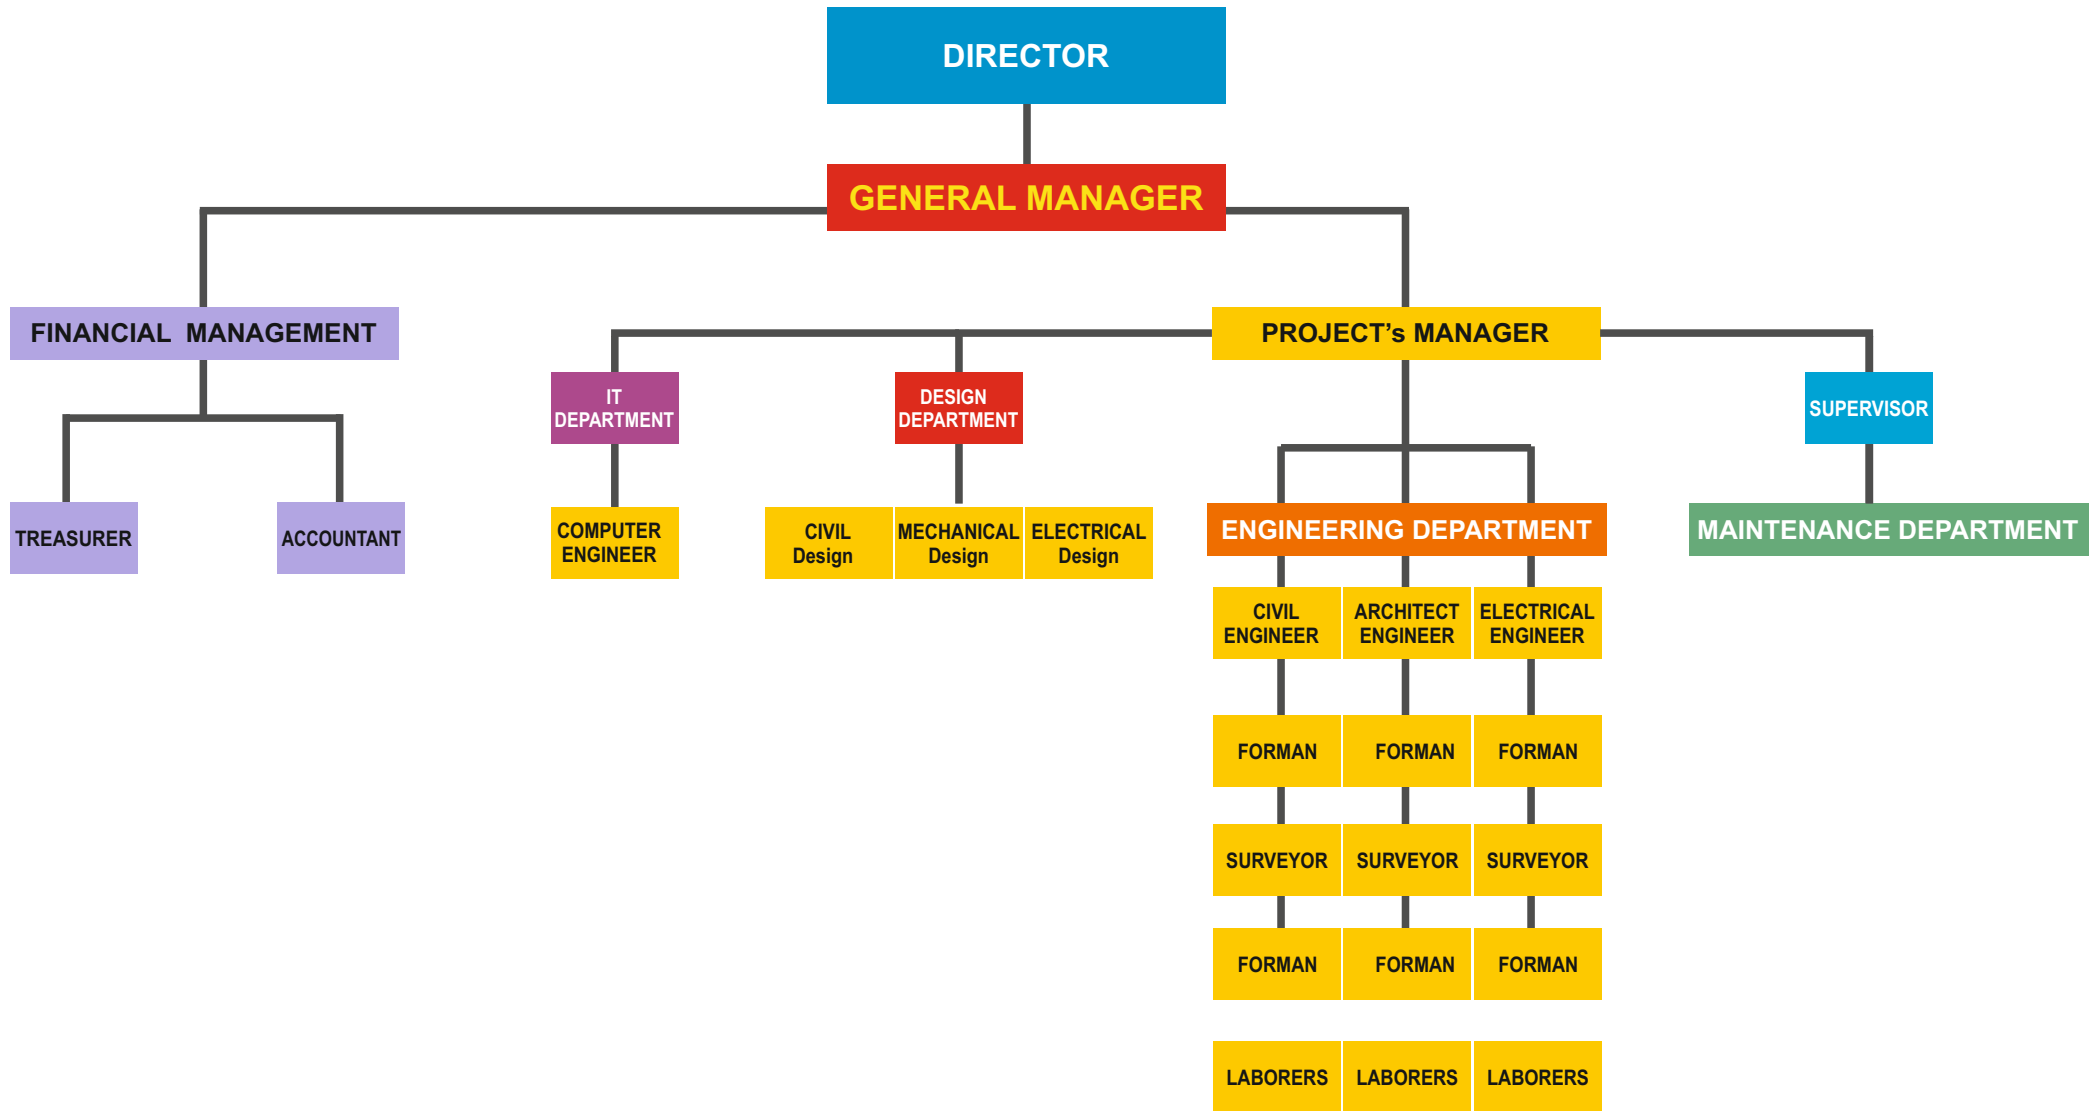

Finally, I want to communicate sincerely to all the stakeholders and customers that PCC will not only continue to improve its resources but all it will also maintain its greatest success through perfection and satisfaction.

Thank you,

The Managing Director

Services » Civil Contracting

You are here:[Home](#) » [Services](#) » Civil Contracting

PCC offers a complete range of civil contracting services in all areas ranging from commercial and residential to Industrial and petro-chemical sectors. We have worked hard to create and establish our reputation in this area and have become among the leaders of civil contracting services. Our skilled managerial and employment capabilities in the field of civil engineering and allows us to overcome all types of complexities in order to provide our valued clients and government agencies on-time services with consistently high quality standards.

Since our inception in the regional markets of Saudi Arabia, our business has developed tremendously and we have gained specialized experience in the field of civil works. Our quality of work has led us to win numerous safety awards from Saudi governmental authorities. We have developed a world class safety management system that ensures PCC as a forefront in safety measurement in the civil construction industry. We are capable of handling all types of civil construction works including office buildings, custom offices, retail interiors, and commercial construction spaces. We provide our clients with all types of building construction solutions with up to the mark services and have dominated the Saudi Arabian regional markets with the combination of civil expertise and financial backing with desired capital requirements.

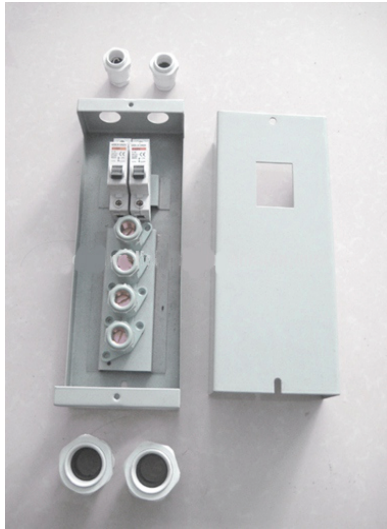

Our services involve the following important points:

- Turn-Key Residential and Commercial Construction.
- Specialized talent in design-build minarets for mosques.
- Landscaping.
- Economies of scale related to cost effective construction.

PCC has recruited and trained highly qualified and experienced civil professionals for ensuring world class contracting services in the civil construction sector. All of our operational activities involve proportioning, placing, mixing, transporting, compacting, finishing and curing concrete works according to the demands of our clients. We never compromise on quality and always ensure the satisfaction to the highest degree. We also provide our civil contracting services in the areas of water supply construction, collection and disposal of solid and liquid waste with sewage treatment works, along with supervising fabrication and erection of steel works according to our client needs.

Mechanical Contracting

You are here:[Home](#) » [Services](#) » Mechanical Contracting

PCC– General Contracting uses main principles of mechanical engineering in all its services including design, development, and utilization of machines, tools, materials, structures, instruments, processes in line with international standards. We take pride in providing advice, developing feasibility studies, preliminary and final plan preparations, consultation services, installation, inspection, and evaluation of engineering projects and all areas including commercial, residential, and industrial sectors. Through partnerships and talent from around the globe, we are able to provide a list of mechanical contracting services to our clients with confidence that our job done will pass any quality control test known in the industry.

We specialize in the following areas for our mechanical services:

- Industrial Piping
- Instrumentation
- Pipe Fabrication
- Plumbing
- Boilers and Chillers

Electrical Contracting

You are here:[Home](#) » [Services](#) » Electrical Contracting

PCC has the ability to manage a wide range of electrical solutions for our clients in compliance to their specialized requirements. We are very confident in ensuring that our clients receive a quality service while not overlooking safety and reliability requirements on all types of industrial and commercial projects, regardless of size. Our managerial and electrical engineers and technicians are very competent, some have more than years experience in the field and our clients have always been satisfied with our services as we have been consistently exceeding QC expectations.

Our services in electrical technology are developed with long-term value in mind, ensuring low levels of maintenance, while also dealing with expansion, upgradability, and optimization of life cycles in mind. PCC ensures quality services in construction management, vast experience in industrial and advanced technology which results in an ideal situation with which overall cost of projects can be minimized. We are focused on the efficient delivery of our services and have experience facing and overcoming challenges of projects by the application of cutting-edge research and techniques.

PCC specializes in Electrical technology in the following categories:

- Providing low cost solutions of low voltage systems including panel boards, switch boards, switchbacks of classified and non-classified installations, and AC/DC distribution systems in all types of buildings.
- Managing medium voltage systems with top quality switchgears of different functionality according to customer needs, compact and PCC dary substations, with mobile and portable power centers.
- Our automation and control systems offer world class staging and instrumentation, we provide installation of products ranging from control boxes, protection and control relays, to programming and building software management systems. We provide training and consulting services in engineering, system designs, and CAD management software.
- PCC provides all types of industrial electrical project services, electrical cabling work, panel installation, and testing services at all levels.

PCC believes in the safety of its work force and its clients. We do not compromise on safety of any kind on any given circumstance. We believe the work force behind any company is its backbone and PCC likes to stand strong among its competition. We make sure that our workers are adequately trained with fall protection systems, have the best supervisory services offered to our employees, and enforce that required safety precautions are taken in the protection of our workers. We have a highly developed safety and occupational health policy to ensure the safety of our technical staff and skilled workers on our different projects. We review of our safety policy once a year and setup all the necessary safety programs for their implementation. Supervisors at PCC ensure that the workers are working according to the rules and regulations of protective gear and necessary measures and precautions are taken according to designated regulations of the company.
