

ALKHALIJ ALWATANIA

Rental Equipment and Generators

Our New Era of
Power Solutions

Introduction

Al Khalij Watania Tajeer Has been established to support and develop power generation and heavy equipments in the Kingdom of Saudi Arabia.

Al Khalilj watania Tajeer is a 100 percent fully owned Saudi company.

Having a fleet of more then 200 units of generators in ksa we have been providing temporary power successfully to Bin laden Group in Masjid al Haram for the construction site since 2011 and also to others industries.

Our Scheme is Rental , BOOT , BOO scheme

Having 2 different department namely retail for rental of generators from 100 to 1000 KVA and power solution depending the requirement from 1Mw to 100Mw.

Al Khalij Watania Tajeer has the unique ability to exploit distributed power opportunities all along the value chain. It creates spin off opportunities and a concept via two complementary operations:

Rental of Generators range from 100Kva to 1000Kva

The developer, owner and operator of small and medium-sized diesel -fired power plants;

Al Khalij Watania Tajeer has differents range of heavy equipments and trailers for rental

Mission

To be a worldwide rental player of Diesel Power Generation and heavy equipment.
