Our Clients

Who's Our US Clients?

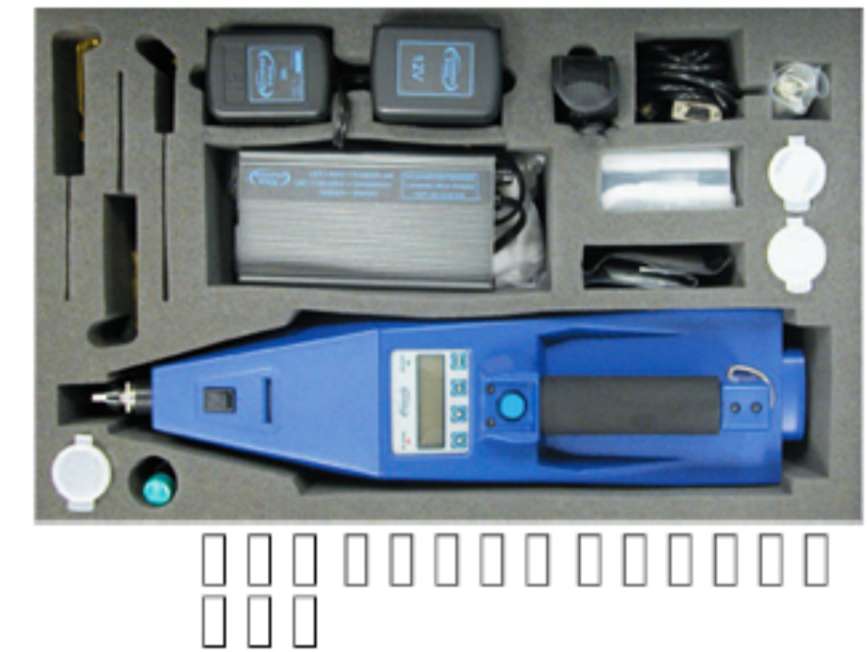

- These are the two US Based company that we are Dealing with:

AUTOCLEAR
a-clear.com

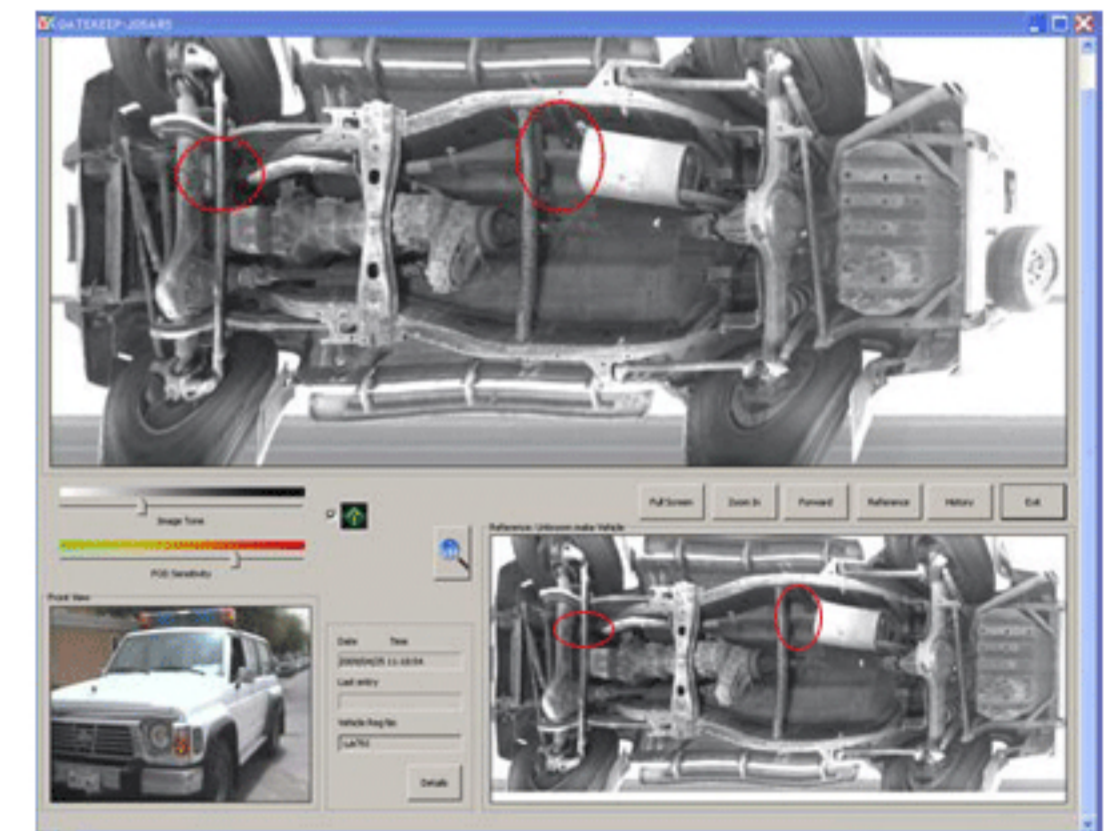

E3500 Trace Detector

The E3500 explosives trace detector uses chemiluminescence to detect home-made, military and commercial explosives, including ICAD taggants, plastics, ammonium nitrate, black powder, other nitrates and TATP.

The GKR-2011 AUVIS

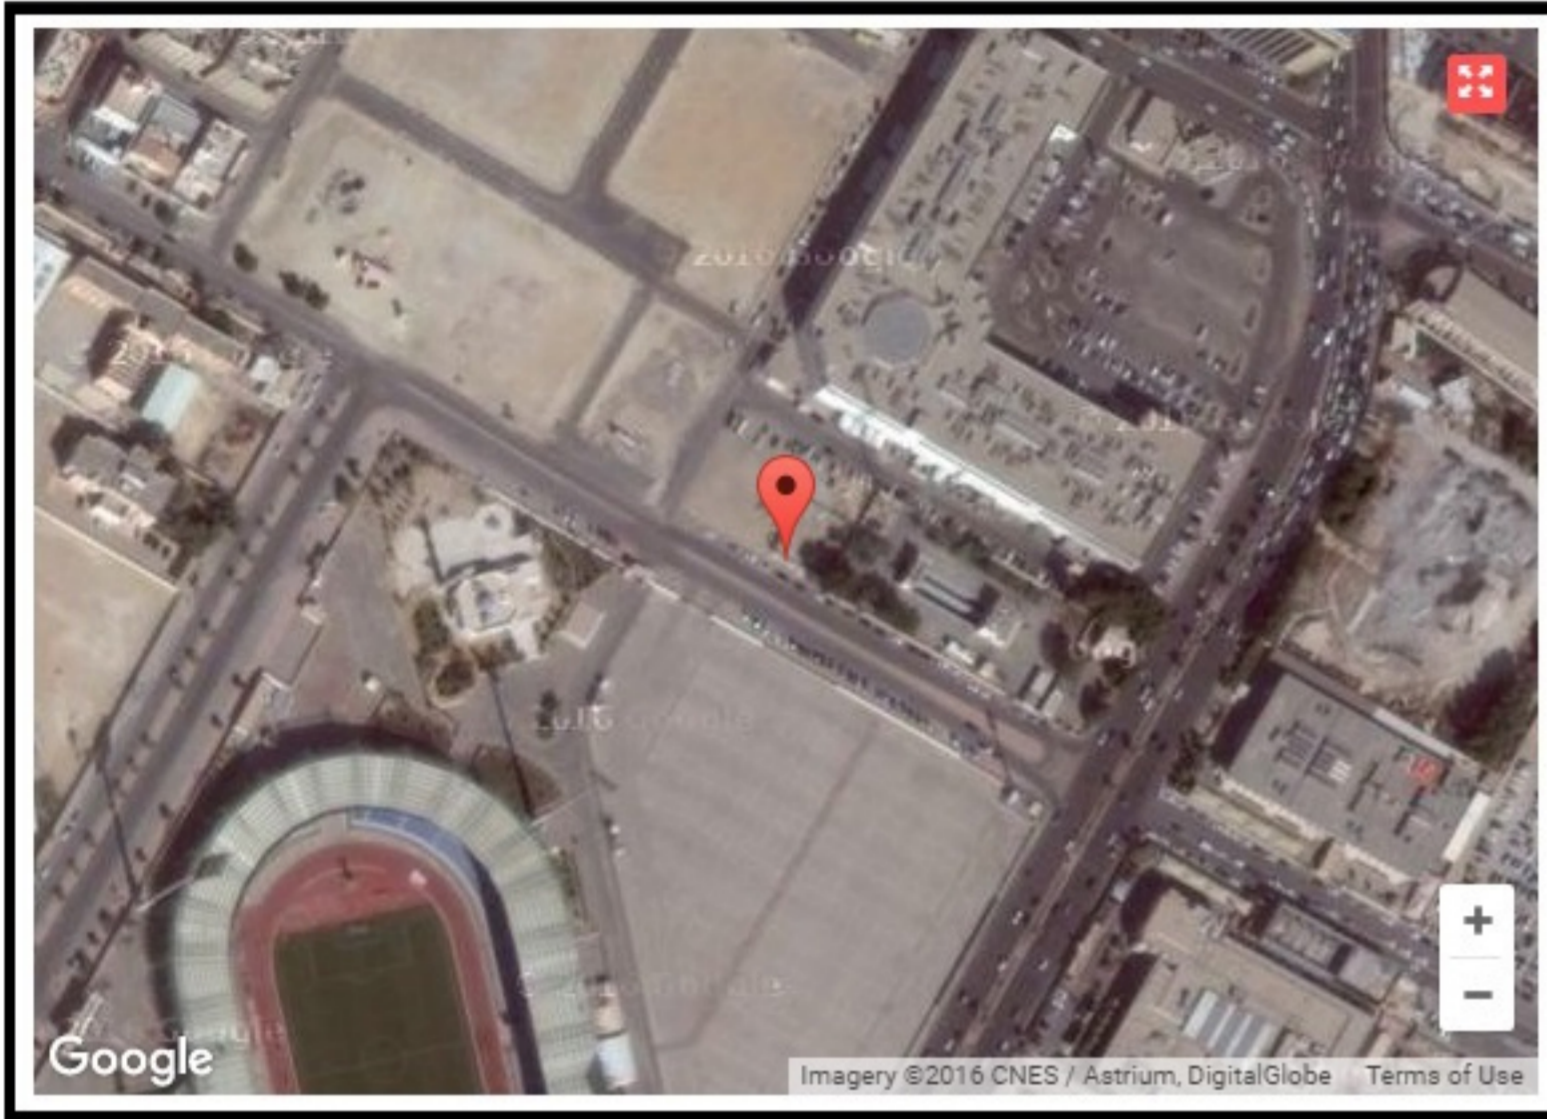

is a vehicle's undercarriage scanner. Vehicles drive over the environmentally sealed, dual view scanners two high-resolution, virtual 3-D digital images of a vehicle's undercarriage to create the vehicle's "fingerprint." An overview/driver camera captures the normal view of car/driver and displays this on the high-resolution touch screen.
