- Piping
- Fire Fighting System
- Air Conditioning

We are providing customer- oriented, service-driven, and community – minded, We take our reputation for uncompromising service and unparalleled expertise to heart. We are committed to continuous improvement , while embracing new technologies to provide the best construction solutions available today to our customers in the region and beyond.

10.2.1. HVAC

Highly Trained & Experienced Team

At Shroff our team of highly trained and experienced management, admin staff and field technicians are well equipped to provide you with the service and finished product which you expect. Our expertise and flexibility is demonstrated from the time of initial contact, through the installation process and continued professional after sales service.

Professional HVAC Installation

Each air-conditioning project is different, and the technical equipment required depends on a wide variety of factors, such as the unique construction, age, size, and location of the building, and the client's expectations and budget. Because of this, professional HVAC planning and installation is a pre-requisite to ensuring the smooth operation of the air-conditioning system, interior comfort and required optimal temperatures.

Stringent Quality Policy

Our stringent quality policy has been formulated and refined to give our customers complete confidence and peace of mind, knowing that the entire team at Shroff ensure that our high standards of service, product supply and maintenance management are always adhered to. Our management team consists of men whose backgrounds consist of \pm 60 years of experience in the Maintenance and Management industry, 45 years of engineering and design as well as a chief financial officer with over ten years of accounting, administrative, merger and acquisition, and banking experience.

10.2.2. DVAC (Duct Ventilation Air Conditioning)

DVAC specialized in Duct Fabrication and Ventilation System, has executed different kind of Projects: Residential, Commercial, Governmental, Industrial & Institutional.

For over 25 years, DVAC has been specializing in the Ventilation System, performing the Duct Fabrication, Sound Attenuators, Volume Control Dampers (VCD), Fire Dampers (UL Classified), Bypass Terminal Units (VAV), Sand Trap Louvers, Access Doors, Plenum Boxes and many other items related to HVAC system in different sizes and shapes.

GALVANIZED - STAINLESS - CARBON

Galvanized & Stainless Steel Ductwork

Galvanized ductwork & stainless steel ductwork Duct provides A FULL LINE of standard and special fabricated Industrial Ducting, including Galvanized ductwork, Stainless steel ductwork (304/316), and Carbon Steel. Sizes 3" and up- Gauges from 24 to 3/16". ALL components, (standard and special design). ALL joining methods- flanges, raw ends or rolled lip clamp together. Just tell us your application and requirements – US Duct is fully equipped to provide custom galvanized and stainless steel ductwork to suit your specific needs.

In order to satisfy the diverse needs of our customers, we offer a large range of options beyond stainless steel ductwork. For instance, we offer products in a variety of sizes beginning at 3". Our options for gauges range from 24" to 3/16".

In addition to providing all of these options, we ensure that you receive every component that you need from us. We offer a full range of standard and special design products. We can also supply you with all types of joining methods, including flanges, raw ends, and clamp together.

If you are interested in retaining our services for galvanized ductwork, send us your information and requirements so that we can begin to assemble the components necessary for your system. Since we are able to produce custom ductwork to fit specific needs, we can fill any order, no matter how complicated.

10.2.3 DDS (Ductwork Design Services)

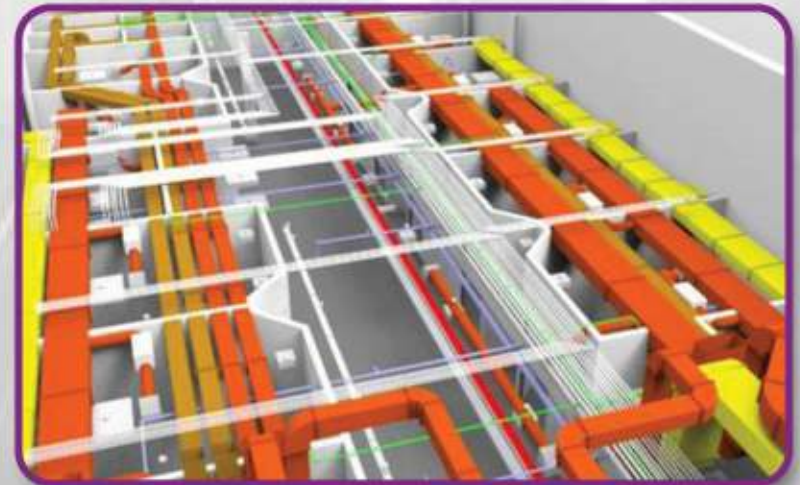

At Shroff, ductwork design is a key part of operation. Our goal is to please our customers, so we understand how important it is for us to supply everything you need for your custom duct design. Since we provide everything, you can count on a smooth installation experience.

As a supplier, we recognize how critical it is for our services to completely satisfy.

In addition to offering everything you need for your ductwork, we are committed to giving you all of the necessary information for installing your custom duct system. We make sure that our duct designs work every time; plus, we do everything we can to ensure that the whole installation process is easy for you.

Ductwork can be costly, so we offer our customers a number of free design services. For instance, we provide free design, drawing, and take-off services for 90% of our jobs. For extra assistance throughout the design procedure, you can obtain online help and consultation from us via Go To Meeting. This service allows us to walk you through the process by evaluating what you need, discussing what products you will receive and what you need to do with them.

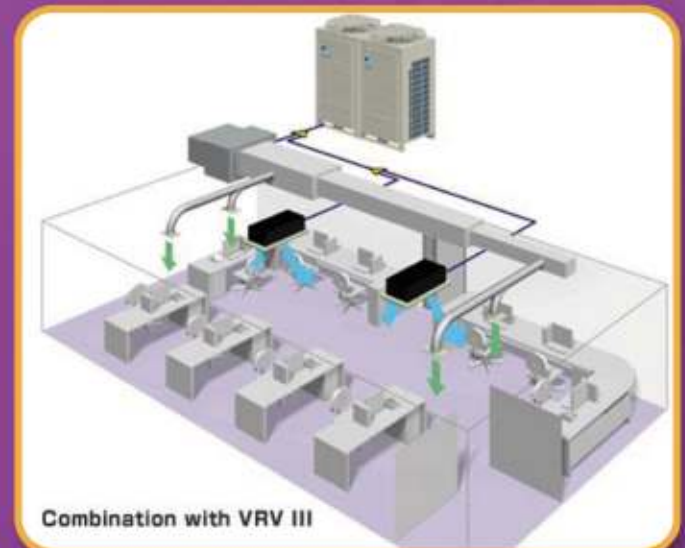

10.2.4 Air Conditioning

At SHROFF Electro Mechanical ., we work with the best suppliers in the industry to provide our customers with the most practical and innovative equipment available today. And, in order to service what we sell, our technicians receive continuous training on the latest products and technology . We consider it a worthy challenge to find the ideal air conditioning solutions for your home or business – you name it and we have probably done it, be it a simple repair for residential air conditioning or installation of comprehensive air conditioning in kingdom and anywhere in between .

And because the needs of our customers continue to grow and evolve with the changing economy and environment , the types of equipment we sell and service continues to expand and adapt , including:

- Air Conditioners
- Air Filtration and Humidifier systems
- Energy – efficient Geothermal Units
- Air Rotation Units
- Air Conditioners and Exhaust Fans
- Louvers, Dampers, and Root ftop Equipment
- Commercial Refrigeration Equipment
- VRF variable refrigerant flow system
- VRV variable refrigerant volume system solution

10.2.5. Piping

This department is independent department ,though some of the resources are shared. Their expertise is cross country pipelines (Gas& Liquid), in several material types including Carbon Steel, Exotic materials , and the plastics family GRP, GRE, and GRV. Mainly Crude oil, Fuel Gas, Desalinated Water, or potable water network pipelines have been the historic common applications which Black Cat has been exposed to. This department does the A to Z for the pipeline including the material specifications, wall thickness calculations, all the way to alignment sheets for construction purposes .

- Typical deliverables include
- Pipeline Design Basis& Crossing Design Reports
- Material specifications
- Wall thickness Calculations
- Typical crossing Details
- Expansion loop design details
- Pipeline Sleeper Details
- Typical Burial Details
- Pipeline Anchor Details
- Pipeline Alignment Sheets
- Pipeline station Approach Drawings
- Pipeline Crossing Matrix

- Pipeline Route drawings
- Pipeline Elevated support details
- Pipeline Stress analysis (Static/ Dynamic)
- Pipeline Construction Specifications
- Pipeline commissioning Specifications
- Baseline survey specifications
- Field Engineering Support

10.2.5. Fire Fighting System

If you have installed a state-of-the-art system in your facility its ability to function at peak performance levels is directly dependent on the quality, and frequency of inspections and maintenance provided. At fire equipment we are proud to offer our clients a variety of programs to meet their needs. We also consult and design custom programs for unusual or high requirement environments .

Features:- when the fire alarm is activated :

- The supply-and- exhaust ventilation system automatically switches off
- The smoke removal system for the floor corridors and underground parking automatically switches on
- The air supply system for stair cases and elevator shafts automaticly switches on
- The voice and light warning system (flashing light strobes located by the loudspeakers near building entrances) automatically switches on
- The fire alert is passed by radio channel to the main pannel of Chisinau fire department
- Fire alarms have indicators for both normal and alerting states.Once the fire alarms have been activated , the main panel displays the location of the fire and smoke expansion.

We have specialized fire protection Engineers and consultants could help in:

- Analyzing the kind off Fire safety Arrangements required in your valuable Premises
- Based on that , we would give our recommendation on how can you protect your premises with the help of Latest Fire Safety Equipments
- Installation of Required Fire Safety Equipments (We are suppliers of all types of Latest Fire Safety Equipments)

10.2.7 Maintenance

Managing Maintenance in your Business with Shroff Co.

Shroff has been providing maintenance and technical solutions for management organisations for over 7 years. Our expertise per single person exceeds 30 years of experience. We have successfully worked with major management organisations to improve equipment and staff performance while reducing costs. We work side-by-side with our clients to develop solutions and implement them in real world situations. The results are innovative solutions that are changing the way our clients approach maintenance.

Our experience shows that maintenance should and can be managed as an integral part of their business - not a cost centre. It can be structured and evaluated accordingly. Providing value at a competitive price to customers is the driving force of our company. Desired outcomes must be defined, managed, and measured. We developed a balance between the technical culture and customer service culture in our organisation that results in the best value to our customers. Instead of seeing maintenance as a long-term burden, you can now view maintenance as an opportunity to make significant contributions to the bottom line.

HVAC Installation, Service & Maintenance
The Shroff Co. performed by its employees is guaranteed against any defect or inferiority for a period of 6 months, and will uphold any guarantees provided by suppliers on equipment supplied and installed and serviced by Shroff Co. personnel.
